### **ONTIC ACQUIRES ADDITIONAL JT15D ENGINE PARTS FROM PRATT & WHITNEY CANADA CORP.**

Ontic Engineering & Manufacturing, Inc. (Ontic), a BBA Aviation company and the aerospace industry's leading provider of 'Extended Life Solutions' for Original Equipment Manufacturer (OEM) legacy products, has acquired the manufacturing rights from Pratt & Whitney Canada (P&WC) for additional JT15D engine components.

This is Ontic's third acquisition from P&WC and will strengthen the company's portfolio of engine support capabilities. Ontic will manufacture and sell the additional components from its Chatsworth, CA facility and the parts will continue to be distributed through the JT15D new parts distributor, Aviall Services Inc.

"Beginning with our first engagement with P&WC in 2015, we had the intent to expand Ontic's component offering for the JT15D," stated Gareth Hall, President and Managing Director of Ontic. "The JT15D engine aligns with Ontic's commitment to support legacy products and this further acquisition is a logical progression and expansion of our current services to our OEM partners. We value our relationship with P&WC and are looking forward to continuing the partnership."

With more than 6,700 engines produced since the 1970s, the JT15D is used on a wide range of business aircraft, including the Cessna Citation II, Hawker 400A and Cessna Citation V. P&WC is an esteemed customer of the BBA Aviation family with Dallas Airmotive and H+S Aviation providing authorized maintenance, repair and overhaul support for many P&WC engines, including the JT15D.

Ontic is a wholly owned subsidiary of BBA Aviation plc, with over 40 years of aerospace product manufacturing and aftermarket support experience. Ontic provides FAA, EASA Part 21 and 145 OEM support, including new and serviceable spares and repairs for over 6,000 maturing aircraft parts. Its portfolio of products, licensed or acquired from major OEMs such as Honeywell, UTC Aerospace, Woodward, Safran, and GE Aviation, span all major aircraft systems in both civil and military markets. For more information, please visit [www.ontic.com](http://www.ontic.com).

BBA Aviation plc is a market leading, global aviation support and aftermarket services provider, primarily focused on servicing the Business and General Aviation (B&GA) market. We support our customers through three principal businesses: Signature Flight Support is the world's largest fixed base operation (FBO) network for B&GA users with more than 200 locations covering key destinations in North America, Europe, South America, Caribbean, Africa and Asia. Ontic is a leading provider of high-quality equipment and cost-effective solutions for the continuing support of maturing and legacy aerospace platforms with locations in the USA, Europe and Asia. Engine Repair & Overhaul/Global Engine Services is a leading independent engine service provider to global B&GA operators, the rotorcraft market and regional airline fleets with locations in the USA, Europe, South America, Asia and the Middle East. For more information, please visit [www.bbaaviation.com](http://www.bbaaviation.com).
