

KEEPING THE WORLD FLYING

 ONTIC

WELCOME

Ontic has been responsible for the continuity of commercial and military aircraft fleets around the world for more than 50 years, ensuring they remain operational, available, safe and fit for continued service.

Through strategic licensing and end-to-end support, we enable our OEM partners to look to the future, secure in the knowledge that we are safeguarding their current fleets.

Delivering assured quality and supply chain predictability, we help to keep the world flying, and couldn't be more proud of this responsibility.

It is an honor to be a trusted partner to the world's leading Tier-1 OEMs, airframers, armed forces and airlines.

GARETH HALL

Chief Executive

ONTIC AT A GLANCE

Our expertise in transitioning and future-proofing established product lines enables our OEM partners to divest and license their non-core parts to us, ensuring LRU continuity while freeing up resources for their critical lines and future innovations.

With extensive experience in overcoming supply chain obsolescence and a high mix, low volume business model, we're able to meet customer demand flexibly and keep fleets flying for longer.

THE ONTIC EFFECT

The Ontic effect is transformative and cumulative, giving operators peace of mind in the future of their fleets, while enabling OEMs to continue to innovate for the next generation of aircraft.

LICENSOR PARTNERS

Liberation of key or finite resources, such as engineering talent, floor space and customer services.

Divest full responsibility of parts, customer relationships and supply chain sustainment.

Focus on innovation and product development.

Continuity of customer care and brand reputation.

OPERATOR CUSTOMERS

Confidence in supply chain and parts availability.

Confidence in ongoing fleet enablement and availability.

Continuity of product understanding and expert knowledge resources.

Assured provision of repair schemes, maintenance and overhaul support.

Keeping the world flying
